The first Americans arrived as early as _____ years ago. It is believed that they crossed a frozen land bridge between Asia and Alaska, now called Beringia, and into North America. Some groups may also have edged down the _____ in boats. Evidence suggests that these first Americans were _____ hunters and that their most rewarding prey was the _____, which provided them with many of life's essentials. Between 10,000 and 5,000 years ago, people began to experiment with _____ in what is now central Mexico. Archaeologists believe that _____ was the first plant that ancient Americans developed for human use. The growth of agriculture allowed people to settle down in one place and build communities. This, in turn, led eventually to the development of civilizations.

Summarizing

B. Complete the chart below by providing characteristics and achievements of America's earliest civilization builders.

Boyer, 1995 This book explores seven broad themes central to American history global relations the Constitutional heritage democratic values technology and society cultural diversity geographic diversity and economic development They provide a context for the historical events which will help the student understand the connections between historical events and see how past events are relevant to today s social political and economic concerns Themes in American history Throughout the book the student is asked to think critically about the events and issues that have shaped U S history Helping the student develop critical thinking skills is a key goal of the text Critical thinking and the study of history **Exploring Canada and Latin America** Bert Bower, 1991 *Human Heritage* Miriam Greenblatt, Peter S. Lemmo, 2001 A world history textbook chronicling the rise of Western and Eastern civilizations Includes photos art illustrated charts vocabulary exercises and review questions **Communities** , 1997 *The Triple Package* Amy Chua, Jed Rubenfeld, 2014-02-04 That certain groups do much better in America than others as measured by income occupational status test scores and so on is difficult to talk

about In large part this is because the topic feels racially charged The irony is that the facts actually debunk racial stereotypes There are black and Hispanic subgroups in the United States far outperforming many white and Asian subgroups Moreover there s a demonstrable arc to group success in immigrant groups it typically dissipates by the third generation puncturing the notion of innate group differences and undermining the whole concept of model minorities Mormons have recently risen to astonishing business success Cubans in Miami climbed from poverty to prosperity in a generation Nigerians earn doctorates at stunningly high rates Indian and Chinese Americans have much higher incomes than other Americans Jews may have the highest of all Why do some groups rise Drawing on groundbreaking original research and startling statistics The Triple Package uncovers the secret to their success A superiority complex insecurity impulse control these are the elements of the Triple Package the rare and potent cultural constellation that drives disproportionate group success The Triple Package is open to anyone America itself was once a Triple Package culture It s been losing that edge for a long time now Even as headlines proclaim the death of upward mobility in America the truth is that the old fashioned American Dream is very much alive but some groups have a cultural edge which enables them to take advantage of opportunity far more than others Americans are taught that everyone is equal that no group is superior to another But remarkably all of America s most successful groups believe even if they don t say so aloud that they re exceptional chosen superior in some way Americans are taught that self esteem feeling good about yourself is the key to a successful life But in all of America s most successful groups people tend to feel insecure inadequate that they have to prove themselves America today spreads a message of immediate gratification living for the moment But all of America s most successful groups cultivate heightened discipline and impulse control But the Triple Package has a dark underside too Each of its elements carries distinctive pathologies when taken to an extreme they can have truly toxic effects Should people strive for the Triple Package Should America Ultimately the authors conclude that the Triple Package is a ladder that should be climbed and then kicked away drawing on its power but breaking free from its constraints Provocative and profound The Triple Package will transform the way we think about success and achievement
