Pettiway presents a series of essays that provide a path that liberates us from these sufferings In doing so, he provides a unique perspective that reframes the social realities of racial membership and institutional racism in the US and how they impact our perceptions of crime and justice Buddhism and race are essential elements of these discussions but Pettiway's commentary is also informed by an Afrocentric perspective In these ways Pettiway examines our thoughts concerning race, the causes of crime, and the administration of justice He uses these frameworks to demonstrate how our current modes of thinking reinforce and perpetuate white supremacy influence our scholarly endeavors and frame today's public policies and social agendas In *Only for the Brave at Heart: Essays Rethinking Race, Crime, and Justice*, readers will 1. learn new ways of thinking that can liberate our world from injustice 2. assess the ways we create the realities of race, crime, and justice 3. explore how love and compassion lead to meaningful actions that can reduce human suffering Pettiway has spent his career as an academic and Buddhist monk reflecting on and writing about the African American experience *Only for the Brave at Heart* attempts to

The Seduction of Space Jules O'Dwyer, 2025-03-11 A bold and far reaching new study of French queer cinema reimagines the relationship between sexuality and space Spatiality has long been a crucial and potent lens for understanding French culture and aesthetics While canonical greats of French cinema such as Jean Luc Godard Agnès Varda and Louis Malle invoked the notion of flânerie to explore ideas of modernism spatial exploration and urban sociality Jules O'Dwyer demonstrates how a more recent generation of French queer filmmakers continues to engage with and contest this legacy by focusing attention on the cognate practice of cruising Through the work of Jacques Nolot Sébastien Lifshitz Christophe Honor Vincent Dieutre Alain Guiraudie and others The Seduction of Space draws film theory queer studies and spatial inquiry into close proximity to examine the politics of cruising and the gendering of space Making the case that cinema not only documents the queer spaces of the past but continues to produce them O'Dwyer maps the relationships between sex and spatiality as he takes up such varied topics as public sex in the porn theater racial eroticization in the banlieue and the ecocritical valences of rural cruising Foregrounding the crucial role that spatiality plays in shaping the parameters of France's visual cultures and political imaginary The Seduction of Space is both an urgent queer reconceptualization of this tradition and a clarion call for film scholars to tarry with the politics of sexuality in all its messiness Retail e book files for this title are screen reader friendly with images accompanied by short alt text and/or extended descriptions

Urban Rehearsals and Novel Plots in the Early American City Betsy Klimasmith, 2021-11-04 Urban Rehearsals and Novel Plots in the Early American City sheds new light on the literature of the early US by exploring how literature theatre architecture and images worked together to allow readers to imagine themselves as urbanites even before cities developed In the four decades following the Revolutionary War the new nation was a loose network of nascent cities connected by print Before a national culture could develop local city cultures took shape literary texts played key roles in helping new Americans become city people Drawing on extensive archival research Urban Rehearsals argues that literature particularly novels and plays allowed Bostonians to navigate the transition from colonial town to post revolution city enabled Philadelphians to grieve their experiences of the 1793 Yellow Fever epidemic and rebuild in the epidemic's aftermath and showed New Yorkers how the

domestic practices that reinforced their urbanity could be opened to the broader public Throughout attention to underrepresented voices and texts calls attention to the possibilities for women immigrants and Black Americans in developing urban spaces while showing how those possibilities would be foreclosed as the nation developed Balancing attention to canonical texts of the early Republic including *The Power of Sympathy* Charlotte Temple and Benjamin Franklin's *Autobiography* with novels whose depiction of early cities deserves greater attention such as *Ormond* *The Boarding School* *Monima* and *Kelroy* this volume shows how US cities developed on the pages and stages of the early Republic building urban imaginations that would construct the nation's early cities

Staged Seduction Akiko Takeyama, 2016-03-09 In the host clubs of Tokyo's Kabuki-cho red light district ambitious young men seek their fortunes by selling love romance companionship and sometimes sex to female consumers for exorbitant sums of money *Staged Seduction* reveals a world where all intimacies and feigned feelings are fair game for the hosts who employ feathered bangs polished nails fine European suits and the sensitivity of the finest salesmen to create a fantasy for wealthy women seeking an escape from the everyday Akiko Takeyama's investigation of this beguiling underground love business provides an intimate window into Japanese host clubs and the lives of hosts clients club owners and managers The club is a place where fantasies are pursued and the art of seduction isn't merely about romance a complex set of transactions emerges Like a casino of love the host club is a site of desperation aspiration and hope in which both hosts and clients are eager to roll the dice Takeyama reveals the aspirational mode not only of the host club but also of a Japanese society built on the commercialization of aspiration seducing its citizens out of the present and into a future where hopes and dreams are imaginable and billions of dollars can be made

Archives of Labor Lori Merish, 2017-05-04 In *Archives of Labor* Lori Merish establishes working class women as significant actors within literary culture dramatically redrawing the map of nineteenth century US literary and cultural history Delving into previously unexplored archives of working class women's literature from autobiographies pamphlet novels and theatrical melodrama to seduction tales and labor periodicals Merish recovers working class women's vital presence as writers and readers in the antebellum era Her reading of texts by a diverse collection of factory workers seamstresses domestic workers and prostitutes boldly challenges the purportedly masculine character of class dissent during this era Whether addressing portrayals of white New England factory girls fictional accounts of African American domestic workers or the first person narratives of Mexican women working in the missions of Mexican California Merish unsettles the traditional association of whiteness with the working class to document forms of cross racial class identification and solidarity In so doing she restores the tradition of working women's class protest and dissent shows how race and gender are central to class identity and traces the ways working women understood themselves and were understood as workers and class subjects

Discerning Characters Christopher J. Lukasik, 2011-07-11 In this path breaking study of the intersections between visual and literary culture Christopher J. Lukasik explores how early Americans grappled with the relationship between appearance and social

distinction in the decades between the American Revolution and the Civil War Through a wide range of evidence including canonical and obscure novels newspapers periodicals scientific and medical treatises and plays as well as conduct manuals portraits silhouettes and engravings *Discerning Characters* charts the transition from the eighteenth century's emphasis on performance and manners to the search for a more reliable form of corporeal legibility in the wake of the Revolution The emergence of physiognomy which sought to understand a person's character based on apparently unchanging facial features facilitated a larger shift in perception about the meanings of physical appearance and its relationship to social distinction The ensuing struggle between the face as a pliable medium of cultural performance and as rigid evidence of social standing Lukasik argues was at the center of the post Revolutionary novel which imagined physiognomic distinction as providing stability during a time of cultural division and political turmoil As Lukasik shows this tension between a model of character grounded in the fluid performances of the self and one grounded in the permanent features of the face would continue to shape not only the representation of social distinction within the novel but more broadly the practices of literary production and reception in nineteenth century America across a wide range of media The result is a new interdisciplinary interpretation of the rise of the novel in America that reconsiders the political and social aims of the genre during the fifty years following the Revolution In so doing *Discerning Characters* powerfully rethinks how we have read and continue to read both novels and each other
