Taxing Ourselves, fifth edition Joel Slemrod,Jon Bakija,2017-06-02 The new edition of a popular guide to the key issues in tax reform presented in a clear nontechnical and unbiased way To follow the debate over tax reform the interested citizen is often forced to choose between misleading sound bites and academic treatises Taxing Ourselves bridges the gap between the oversimplified and the arcane presenting the key issues clearly and without a political agenda Tax policy experts Joel Slemrod and Jon Bakija lay out in accessible language what is known and not known about how taxes affect the economy and offer guidelines for evaluating tax systems both the current tax system and proposals to reform it This fifth edition has been extensively revised to incorporate the latest data empirical evidence and tax law It offers new material on recent tax reform proposals expanded coverage of international tax issues and the latest enforcement initiatives Offering historical perspectives outlining the basic criteria by which tax policy should be judged fairness economic impact enforceability examining proposals for both radical change replacement of the income tax with a flat tax or consumption tax and incremental changes to the current system and concluding with a voter s guide the book provides readers with enough background to make informed judgments about how we should tax ourselves Praise for earlier editions An excellent book Jeff Medrick New York Times A fair minded exposition of a politically loaded subject Kirkus Reviews [Fiscal Resilience Building: Insights from a New Tax Revenue Diversification Index](#) Rasmané Ouedraogo,Rene Tapsoba,Moussé Sow,Ali Compaoré,2020-06-12 Does the reliance on diversified tax structure enhance resilience to fiscal risks This paper gives an answer to this question by proposing a new cross country tax revenue diversification index RDI The RDI builds on the Theil index and unlike the few existing tax diversification indices which are constructed only at the state level for the US is

computed at the national level covering a broad panel of 127 countries over the period 2000-15. We find suggestive evidence that tax revenue diversification reduces tax revenue volatility thus bringing to the data long held views about the prominence of tax revenue diversification for fiscal resilience strengthening. While exploring the drivers of the RDI we find that tax revenue diversification is not just a reflection of economic diversification but also an outcome of macroeconomic, political and institutional factors. Interestingly a non monotone relationship is also at play between the RDI and economic development with countries portfolio of tax sources getting more diversified as their economy develops until a tipping point where richer countries start finding it harder to diversify further their tax revenue sources. **Rwanda** International Monetary Fund. Statistics Dept., 2018-03-28. This Technical Assistance Report discusses the findings and recommendations made by the IMF mission to assist authorities in Rwanda in aligning the compilation and dissemination of government finance statistics GFS in accordance with the Government Finance Statistics Manual 2014. It was recommended that the Ministry of Finance MINECOFIN should officially assign GFS compilation duties to a specific subset of its staff. The mission believes that it is important for the MINECOFIN to make a permanent assignment of GFS compilation and dissemination duties so that the work can evolve systematically. In the mission's view the Macroeconomic Policy Unit appears to be well placed to perform this task. However the unit should be allocated appropriate resources to take on the responsibility. **Revenue Statistics 2023: Tax Revenue Buoyancy in OECD Countries** OECD, 2023-12-06. This annual publication gives a conceptual framework to define which government receipts should be regarded as taxes. It presents a unique set of detailed and internationally comparable tax data in a common format for all OECD countries from 1965 onwards. This year's edition includes a special feature on tax revenue buoyancy in OECD countries.
