1. The block of wood is a solid, the salad oil is a liquid, and the oxygen is a gas.
2. The wood would stay the same shape because the particles in a solid are fixed tightly in place. The shape of the salad oil would spread out into a puddle because the particles in a liquid flow around each other. The shape of the oxygen would continue to change and spread outward because the particles in a gas move apart in many different directions.
3. Since the block of wood is solid, its volume would stay the same. The volume of the liquid salad oil would stay the same. The volume of the oxygen would expand to fill the size of the larger container because the particles would spread apart.
4. Matter with a definite volume and a definite shape
