31 1949 *Plug-in Vehicles, Plugged in Policy?* Great Britain: Parliament: House of Commons: Transport Committee, 2012-09-20 Consumer demand for plug in vehicles remains very low and the Government grant to encourage demand may not be proving effective The Government must do more to show that its plug in vehicle strategy is a good use of public money Carbon emissions from transport must be reduced if the UK is to meet its climate change targets but public money must be targeted on effective policies So far Department for Transport expenditure on plug in cars some 11 million has benefited just a handful of motorists There is a risk that the Government is basically subsidising second cars for affluent households It is also unclear whether the provision of public charging infrastructure encourages demand for plug in cars Indeed the Government does not even have a register of all the chargepoints installed at public expense **Towards a New Map of Automobile Manufacturing in Europe?** Ray Hudson, Eike W. Schamp, 2012-12-06 This book is the product of four years of collaborative work within the framework of the European Science Foundation's Regional and Urban Restructuring in Europe RURE programme With one exception all of the chapters have been prepared by participants in RURE the exception being that commissioned from Conti and Enrietti on Fiat and Italy to provide a fuller coverage of changes in the main automobile producing companies and countries of Europe A perhaps the central theme around which the RURE programme was conceived is that the restructuring of the production system lies at the heart of the changing map of Europe Equally it continues to be the case that the automobile industry lies at the cutting edge of the search for viable new models of production Some eighty years ago the automobile industry occupied a pivotal position in the transition from craft to mass production indeed Fordism came to denote not just a particular micro economic model of production organisation in the factory but a macro scale model of economic development characterized by a particular pattern of relations between mass production mass consumption and national state regulation From the late 1960s however it became increasingly clear that Fordism as a macro scale model of advanced capitalist development was reaching its limits *Recent Developments in the Metal Trades*, 1993 Explores sectoral trends from 1970 to 1991 **Behind the Myth of European Union** Ash Amin, John Tomaney, 2002-06-01 The vision of the original architects of the European Community was to create a Europe of economic prosperity and social harmony Economic integration has come ever closer but sustained growth and a reduction in social disparities seen as far away as ever This book examines the prospects for the real cohesion in Europe and find that far from promoting it many of the Community's current policies are divisive The neo liberal philosophy at the moment is producing policies which favour relatively wealthy regions and major corporations at the expense of less favoured regions and peoples **Rick Steves Europe Through the Back Door** Rick Steves, 2024-01-30 You can count on Rick Steves to tell you what you really need to know when traveling through Europe With Rick Steves Europe Through the Back Door you'll learn how to Plan your itinerary and maximize your time Pack light and right Find good value hotels and restaurants Travel smoothly by train bus car and plane Avoid crowds and tourist scams Hurdle the language barrier Understand cultural differences and
