The Ledger David Kilcullen, Greg Mills, 2022-01-15 These things happened They were glorious and they changed the world said Charlie Wilson of America's role backing the anti Soviet mujahideen And then we fucked up the endgame With no support for Afghanistan after that war the vacuum was filled by the Taliban and bin Laden The Ledger assesses the West's similarly failed approach to Afghanistan after 9 11 in military diplomatic political and developmental terms Dr David Kilcullen and Dr Greg Mills are uniquely placed to reflect backwards and forwards on the Afghan conflict they worked with the international mission both as advisers and within the Arg and they have considerable experience of counterinsurgency and stabilization operations elsewhere in the world Here these two experts show that there is plenty of blame to go around when explaining the failure to bring peace to Afghanistan after 9 11 The signs of collapse were conveniently ignored in favor of political narratives of progress and success Yet for Afghans the war and its geopolitical effects are not over because NATO is gone Afghanistan remains globally connected through digital communications and networks This vital book explains why and where failings in Afghanistan happened warning against exceptionalist approaches to future peacebuilding missions around the globe

Why States Recover Greg Mills, 2015-01-03 State failure takes many forms Somalia offers one extreme The country's prolonged civil war led to the collapse of central authority with state control devolving to warlord led factions that competed for the spoils of local commerce political power and international aid Malawi on the other

hand is at the other end of the scale During President Bingu s second term in office the country s economy collapsed as a result of poor policies and Bingu s brand of personal politics On the surface Malawi s economy seemed largely stable underneath however the polity was fractured and the economy broken In between these two extremes of state failure are all manner of examples many of which Mills explores in the fascinating and profoundly personal *Why States Recover* Throughout he returns to his key questions how do countries recover What roles should both insiders and outsiders play to aid that process Drawing on research in more than thirty countries and incorporating interviews with a dozen leaders Mills examines state failure and identifies instances of recovery in Latin America Asia and Africa For anyone interested in the reasons behind states failure and remedies to ensure future economic stability it is important reading

Expensive Poverty Greg Mills,2021-10-01 Africa has received 1 2 trillion in development assistance since 1990 Even though donors have spent more than 1 000 per person over these 30 years the average income of sub Saharan Africans has increased by just 350 The continent has very little to show for this money some of which has been consumed by the donors themselves much of it by local governments and elites There must be a better way to address the poverty pandemic *Expensive Poverty* is focused on answering the trillion dollar question why have decades of spending had such a small impact on improving the lives of the poor Whatever the area of aid expenditure humanitarian governance military development the overall intention should be the same to try to reach the point that aid is no longer necessary *Expensive Poverty* lays out how to get there

Waiting for Dignity Florian Weigand,2022-09-20 In August 2021 Taliban fighters entered the presidential palace in Kabul ending

twenty years of international efforts to build a democratic state in Afghanistan Did the Taliban's success rest on coercion and violence alone or did they win the battle for public support through ideology and better services Or did most people in the country not believe in the idea of the state at all trusting only local elders and traditional councils What is the source of legitimacy during armed conflict In *Waiting for Dignity* Florian Weigand investigates legitimacy and its absence in Afghanistan Drawing on hundreds of interviews he examines the perspectives of ordinary people in Afghanistan as well as those of rival claimants to authority insurgents warlords members of parliament security forces and community leaders By exploring how different types of authority attempted to legitimize their rule *Waiting for Dignity* challenges common assumptions about how to build legitimacy such as by delivering services holding elections or adopting traditional institutions Weigand shows that what matters in conflict zones is what he terms interactive dignity Citizens judge authorities on the basis of their day to day experiences with them People want to be treated with dignity The extent to which people perceive interactions to be fair inclusive and respectful is vital to the construction of lasting order Combining theoretical originality with in depth and compelling empirical detail this book offers timely new insights into recent developments in Afghanistan and the challenges facing conflict torn areas more widely
