Kueh,2012-10-01 The book confronts the popular conjecture of a Pax Sinica emerging to replace Pax Americana in the wake of global financial crisis It argues that by virtue of its overwhelming economic technological and military clout US hegemony will continue to prevail though increasingly less coherently as China s ascendance as a global power accelerates The argument is underpinned with analysis of different junctures in China s trajectory towards the status of economic giant from the tacit creation of the Greater China growth triangle and ordeal of the Asian Financial Crisis through the breakthrough with China s membership in the WTO and the subsequent large scale realignment of productive forces in the Asia Pacific region A chronological approach is combined with topical analysis focusing in particular on the interplay between economic imperatives and geopolitical dynamics Taken together the book provides a highly refreshing and coherent perspective for looking at China arising as a dominant Asia Pacific power with significant global implications As an interdisciplinary study it will appeal to scholars and academics as well as businessmen and government policy makers interested in Asian and global affairs and especially to students of economics politics international business and globalization studies Y Y Kueh is a Hong Kong based China expert He taught at The Chinese University of Hong Kong for over two decades served as Founding Director of Centre for Chinese Political Economy at Macquarie University Sydney and retired from Lingnan University Hong Kong as Chair Professor of Economics and Dean of Social Science Currently he is Senior College Tutor Honorary New Asia College The Chinese University of Hong Kong **Tomorrow Almost Dies** Doug Solter, Can you trust an android who is sentient After one near death experience too many Nadia thought back to school would mean homework and maybe figuring things out with a certain young king Wrong When Robert the android returns with a desperate plea Nadia and the Gems are thrown into a high stakes mission in Vietnam as the CIA Chinese Intelligence and Venomous all make a play to find Robert s missing siblings experimental military androids with AI minds of their own Whoever controls them will shift the balance of power in the intelligence world forever
