High Voltage Jim Motavalli,2011-11-08 A behind the scenes look at the robustly competitive race to dominate the market for electric cars the larger than life moguls behind them and the changes that are transforming the auto industry In the 1980s it was unimaginable that the home computer would become as common and easy to use as a toaster Today plug in charging stations and smart grids seem like something still far off in the future But by 2020 the auto industry will look very different from today s field of troubled auto giants The combination of technological breakthroughs and charging networks driven by global warming and peak oil makes it clear that revolutionary change in the auto industry is happening right now In High Voltage Jim Motavalli captures this period of unprecedented change documenting the evolution from internal combustion engines to electric power Driven by the auto world s ambitious and sometimes outlandish personalities the book chronicles the race to dominate the market focusing on big players like Tesla and Fisker as well as a tiny start up and a battery supplier Flashing forward to the changes we ll see in the coming years High Voltage shows a not so distant future where we will live on a smart grid our cars fueling that is charging while we shop or sleep The ramifications of these changes will be on a grander scale than most of us ever imagined altering foreign policy reducing trade deficits and perhaps even ending global warming

Popular Ethiopian Cinema Michael W. Thomas,2022-09-08 This book shines much needed light on the history structures and films of the Amharic film industry in Ethiopia Focusing on the rise of the industry from 2002 until today and embedded in archival ethnographic and textual research methods this book offers a sustained and detailed appreciation of Amharic language cinema Michael Thomas considers fiker love as an organising principle in national Ethiopian culture and by extension Amharic cinema Placing fiker as central to understanding Amharic film genres also illuminates the continuous negotiations at play between romantic familial

patriotic and spiritual notions of love in these films Thomas considers the production and exhibition of films in Ethiopia charting fluctuations and continuities between the past and the present Having done so he offers detailed textual readings of films identifying important junctures in the industry's development and the emergence of new genres The findings of the book detail the affective characteristics that delineate most Amharic genres and the role culturally specific concepts such as fiker play in maintaining the relevance of commercial cinemas reliant on domestic audiences **Blasphear Sohail**
